

HFDAG - Hanwell Fields Development Action Group

HFDAG. Who are we?

HFDAG is a group of residents of Hanwell Fields set up to inform, communicate and ultimately fight the plans for the expansion of housing across the green belt North of Banbury.

Recently announced plans by Cherwell District Council have nominated two green belt sites for housing developments. These are to the North of Hanwell between Dukes Meadow Road and Warwick Road, and to the West and East of Southam Road. These sites have been rejected for development before and have come up again through developer and speculator interest in building "land banks" around our town.

When the Hanwell Fields estate was built, it was made clear that the land to the North of Dukes Meadow Drive would form the northern most limit of Banbury, to prevent urban sprawl, benefit the residents of Hanwell Fields and protect the landscape and setting of Banbury as a classic English market town.
